

Dare to Lead!

“Although people need to have a solid foundation of technical knowledge, the most successful leaders of the future will have also developed strong management, leadership and business skills in order to grow their company’s profitability” ~ FMI

NAWIC MWR Leadership Development Program

Goal: Provide the training and resources to establish a bench of NAWIC members ready and willing to step into leadership roles at the Chapter, Regional and National level. The program consists of components which foster greater understanding of NAWIC and skills which are needed for effective leadership in the construction industry and the organization.
